

Schedule 3

[reg. 2]

1. Any chemical, toxin, micro-organism or other biological agent.
2. Any vaccine, toxoid, protein, or immunoglobulin, capable of being used for protection against, or treatment of, any harmful effects of any of the articles in item 1.
3. Any equipment, or computer software, capable of being used in the development, production or storage of any of the articles in item 1 or 2.
4. Any equipment (including clothing), or computer software, capable of being used in the handling of any of the articles in item 1 or 2 or in the disposal of waste arising out of the development or production of any such article.
5. Any equipment, or computer software, capable of being used in the detection or identification of any of the articles in item 1 or 2.
6. Any equipment (including clothing), computer software, or material, capable of being used in the development, production, handling or storage of any nuclear weapon or any missile capable of delivering any nuclear, chemical or biological weapon.

(L.N. 148 of 1992)

Schedule 4

[reg. 2]

Specified Activities

The following activities are specified in relation to articles specified in Schedule 3—

- (a) the development, production, handling, detection, identification or storage of—
 - (i) any chemical or biological weapon; or
 - (ii) any chemical, toxin, micro-organism, or other biological agent, used in the development or production of any such weapon;
- (b) the disposal of waste arising out of the development or production of—
 - (i) any chemical or biological weapon; or
 - (ii) any chemical, toxin, micro-organism, or other biological agent, used in the development or production of any such weapon;
- (c) the development, production, handling, detection, identification or storage of any vaccine, toxoid, protein, or immunoglobulin, for protection against, or the treatment of, the harmful effects or any chemical, toxin, micro-organism, or other biological agent, used in any chemical or biological weapon;
- (d) the development, production, handling or storage of any nuclear weapon; or
- (e) the development, production, handling or storage of any missile capable of delivering any nuclear, chemical or biological weapon.
